

# NTT GLOBAL FORUM 2017

## Transform. Transcend.

### Innovation for the Enterprise

Transforming your business to transcend your expectations

Thursday 6 July 2017 | McLaren Thought Leadership Centre, Woking

## Invitation

This year's Global Forum will offer a unique range of experiences thanks to our recent technology partnership with McLaren. Guests will hear first-hand about **organising to be innovative** from a panel of senior executives and experts from SAP, McLaren, NTT Innovation Institute Inc. (NTT i<sup>3</sup>) and NTT Communications. Guests will also take part in a **tour of the McLaren Technology Centre**, exclusively available only to McLaren's partners.

We are delighted to confirm that **Tetsuya Shoji**, President and CEO of NTT Communications, **Dr Shin Miyakawa**, Vice President, IoT Office, Corporate Planning, NTT Communications, **Tsunehisa Okuno**, SVP of Global Business and Member of the Board, NTT, **Monte Davis**, Managing Director, NTT Europe, **Ravi Srivatsav**, Chief Business Development Officer, NTT Innovation Institute Inc. (NTTi<sup>3</sup>), **Craig Charlton**, Chief Information Officer, McLaren Technology Group and **Dr Carsten Linz**, Business Development Officer, Global Head of Center for Digital Leadership are confirmed to speak at the event.

The Global Forum will provide a rare opportunity for guests to **network with leaders from a diverse range of industries and countries** during an extended lunch and drinks reception.

## McLaren Technology Centre

See McLaren's heritage with historic, championship winning race cars from F1, Indy 500 and Le Mans 24hrs.

Go behind the scenes within working Formula 1 facilities including.

- Race bays
- Pit stop practice area
- Carbon fibre & 3D printing shop
- Overview of McLaren's historical collection of trophies
